THE Y KIDS FITNESS PROGRAM

Here at the Y, we believe that kids should be involved with positive exercise and fitness activities—to learn the importance of being active and developing healthy habits—from an early age.

The Y Kids Fitness Program (recommended for kids in grades K-6) puts kids in charge of their own physical fitness and well-being, while educating and empowering them to make healthy choices that last throughout a lifetime. Youth can become physically stronger, have more endurance, and experience a sense of joy and fun through participation.

The Y Kids Fitness classes will instill healthier habits and a fun approach to physical activity, setting youth on a better path to become confident kids today and healthier, happier grown-ups tomorrow.
