# 2018 SUMMER CAMP PROGRAM ADD-ONS

## CLASS DESCRIPTIONS

### **BASKETBALL**

Each day we will focus on a skills such as passing, shooting, dribbling and defense. These skills will help develop your child into a more confident athlete on the court!

### **CAMP SPLASH/SWIM LESSONS**

Start your child's day with a splash. Participants will learn water safety, stroke development and swimming techniques in groups based on skill level.

### **CHESS**

Campers will learn a game that has been around for more than 500 years. They will be introduced to the game, its rules and strategies, before progressing to play.

### **FLAG FOOTBALL**

Kids will be introduced to the game of football designed around teamwork and fair play. Each day will introduce a new drill, and end with a scrimmaged game.

### **FLOOR HOCKEY**

Shoot and score! Kids hone their hand-eye coordination, and increase strength and balance in this floor hockey skills class.

### **INTRO TO SPANISH**

There's no better time to learn a new language than when you're young! This class is designed to introduce campers to basic Spanish words and phrases through games, songs and learning.

### **NO-BAKE COOKING**

Campers will test a number of no-bake recipes that integrate math concepts, while promoting problem solving and teamwork.

### **RHYTHMIC MOVEMENT**

There are multiple ways to hula hoop and throughout the week, we will learn just that. Routines will be taught so that at the end of the week, your child will be able to show you how it's done.

### **SPORTS OF ALL SORTS**

From dodgeball, kickball and tag, to scatterball, arena ball and gaga ball, your child will be entertained! We will play old sports and teach new games, all while focusing on developing skills and having fun!

### **STEM – ASTRONOMY**

Why do stars twinkle? Is it possible to fall into a black hole? Will the sun ever stop shining? This class introduces campers to the study of astronomy. Your outer space explorer will learn about constellations, the moon, sun and gravitational waves through fun hands-on experiments.

### **STEM – CODING**

Coding is cool! In this class, your child will be introduced to computer programming skills through fun, interactive exercises. Campers will use problem solving skills and their imagination as they are introduced to basic coding.

### **STEM – EARTH SCIENCE**

Why do we see the sun and moon out at the same time? Why does it thunder when it rains? What is the earth made of? We will guide your child to find answers to these questions as we learn about volcanoes, earthquakes, oceans and weather.

### **STEM – OOZE**

This hands-on STEM class is perfect for kids who are totally into the slime craze—making a mess that you don't have to clean up! Different ingredients will be used as campers test out concoctions to create the best slime.

### **YOUNG AT "ART"**

Your young artist will focus on learning technique and skills, while growing self-confidence. Campers will develop through hands-on imaginative projects, learn about style and art history, and experience the power of self-expression.
